

Marc Weber

MANAGING DIRECTOR

Marc Weber, born in 1973, completed his studies in business administration with a focus on information management at the private University of Applied Sciences (FHDW) in Paderborn. In 1997, he started his professional career as a consultant within the SAP environment for the business consultancy S&P, respectively TDS AG.

In June 2000, Marc Weber changed to the newly founded global-e-net ISS which relaunched under consenso Consulting GmbH in 2008.

Since the beginning of his consultant career, Marc Weber has been working on numerous projects and in various roles as consultant, sub-project and project manager. He has been primarily concerned with tasks in the areas of aftersales services, logistics and master data in the environment of miscellaneous retailing projects.

Among others, Marc Weber took care of the functional overall project management for the implementation of a car trade solution (Dealer Management System) for VAPS EDV-Service Vertrieb GmbH. Subsequently, his responsibilities included the project management for the central master data management with EDEKA LUNAR GmbH and many more.
